

Protekt Akra-FE®

Full-Electric “Low” Bed

The **AKRA-FE Black Vein Full-Electric “Low” Bed** combines functionality with style. The sleek and contemporary design seamlessly blends into any homecare setting. Featuring a rich black textured vein finish with grey head & foot board accents, this bed reimagines traditional homecare aesthetics.

Reliable & Easy to Maintain

The frame’s textured finish resists scratches, maintaining a clean and polished look over time. The washable bed ends ensure easy maintenance, while the built-in emergency hand crank provides added reassurance in case of power failure.

Low Bed Position

FEATURES

- Sleek black textured vein finish with grey accents for a modern look
- Reinforced steel spring deck for enhanced support, comfort, and durability
- Adjustable bed height from 9” to 23”
- Built-in emergency hand crank for manual operation during power failure
- Three-function electric motor system with hand pendant to adjust head, foot, and height positions
- Mattress keepers prevent slipping for added safety
- Four 3” casters: two locking and two swivel for smooth maneuverability
- Lightweight and easy to install, ideal for homecare settings
