

Protekt® Non-Tilt Overbed Table

The **Protekt® Non-Tilt Overbed Table** from Proactive Medical represents everything you want in a traditional and sturdy mobile bed table. The height-adjustable table rises and lowers easily, requiring the slightest of upward pressure, making it user-friendly for all ages and needs. The swivel casters make this rolling table extremely lightweight and comfortable to move from one position or room to the next. The laminated surface features a raised rubber edge, making it difficult for items to slide off your table, and once your desired height is reached, the tabletop locks firmly and safely into place.

Overbed table

Tabletop

Sturdy H-base
